## **Covid-19 - New measures implemented in the current exceptional national context**

20 March 2020

The Luxembourg Business Registers (“LBR”) reported new measures implemented in the current exceptional national context.

Those of most relevance are:

- For the filing of the annual accounts for the financial year 2019, companies will benefit from an additional administrative period of 4 months to submit their financial data filings at the Trade and Companies Register (“RCS”) at the standard rate of EUR 19 excluding VAT (excluding registration fees and the CNC tax). The surcharge for late filing of financial data is exceptionally suspended until 30 November 2020 for filing delays of up to 4 months included. Therefore, for a financial year ending 31 December 2019, for example, filing of annual accounts will be subject to the standard administrative costs of EUR 19 excluding VAT until 30 November 2020
- LBR continues to provide online services (electronic filing, extracts, declaration to the Register of Beneficial Owners (“RBE”), etc)
