

ABOUT US

A firm specialised in ESG

Deveco is a Luxembourg-based consultancy firm founded in 2017, specialising in Environmental, Social, and Governance (ESG) topics, with a strong focus on Corporate Carbon Footprint assessment and bespoke strategy.

ESG topics directly impact operational companies, both locally and internationally, investment funds, private equity groups, as well as real estate structures. To keep ahead of the curve, following those developments, Deveco became part of the ATOZ group of companies in March 2024.

Acting for sustainable impact beyond compliance

Since 2017, clients have trusted us to help them navigate the dense ESG landscape above and beyond the basic ESG compliance needs and requirements, ensuring a true value-add partnership across all parties. Our team brings over 15 years of targeted ESG experience and a thorough understanding of operational activity, based on a proof-of-concept approach.
